THE OFFICE OF YOUR DREAMS

Offices are what we make of them. We spend hours upon hours in our offices and at the end of the day we feel like all the energy has been sucked out of us. Naturally we assume it's because of the hefty workload and endless deadlines, but what it really comes down to is the office atmosphere, more specifically the design of your office. Are you feeling cramped in an old, shabby office? Is the office furniture beginning to wear you out in ways you can't even fathom? If yes, then it's time for a makeover! Babini Office, with its range of quality products will walk you through the evolution of office furniture until you find your ideal design.

Babini Office was founded in 1963 with an entrepreneurial soul dedicated to innovation through its creation of attractive, practical and stylistically exceptional furnishing solutions. Babini offers layouts suitable for group work, shared workstations, receptions, nomadic offices and home offices.

Design: Babini Lab

Use: space division

Material: wood, metal, glass

Finishes: melamine panels: ebony, light oak, Canaletto walnut, wenge, Ambra walnut, teak, white, light grey

Glass panels: transparent, satinated, Europe grey, bronze, square sandblast, line sandblast

Structure: natural anodized aluminium, matt black anodized aluminium, white.

Aria

There's nothing like an open space to allow your mind free reign and stimulate creativity. With piles of work scattered all over your desk, one needs to look up and gaze at a different scenery. This office is enclosed by a transparent wall; like air, it is light, impalpable, and ethereal. Aria is characterized by its elegance and lightness; it shows the evolution the dividing wall through its unique design. The use of large glass is an element of modern architecture, it allows for maximum penetration of sunlight while reducing energy consumption and the impact of the office on the environment.

Goggle Desk

Seeing the Goggle Desk will certainly goggle your eyes! Officially introduced for the first time at the Milan International Furniture show, Goggle Desk features rounded shapes for a playful and elegant work atmosphere. This project is especially designed for future-oriented managers and executives who recognize the importance of bold design in their office. ►►

Design: Danny Venlet

Use: presidential/executive

Material: wood

Finishes: polished lacquer: white, black matt lacquer: white, black, yellow, violet, dove grey wood finish.

Pazol

Pazol is all about returning material to its original state; raw materials that are sweet to the touch. Pazol's distinguishing feature is the strong presence of exceptional "saw-cut" wood. This design is made for those traditional folks who are particular about their designs. The concept of raw design so evident in this project characterizes what you find in domestic environments, which transforms the edgy atmosphere of an office into a home setting that is more welcoming and warm. Designed especially for practical managers with a love for shape and substance, Pazol is all about breaking the ice!

Design: Ivan Palmini

Riga

Time to step outside the premises of your office! The reception area is a fundamental environment, not only for the image of a company but also for the functionality of its daily operations. This design is all about first impressions; you don't want people to question your prestige. Riga is a way of thinking and working where aesthetics, nature and technology reign supreme: just like the world we live in. Let the reception represent the filling!

Design: Ivan Palmi

Use: reception

Material: wood, steel, Okite, Staron®

Finishes: worktop: white, light oak, ebony

panels:

- melamine: white, light oak, ebony
- lacquered: white, graphite

shelves:

- lacquered: geranium red, white, graphite
- Steel
- Okite
- Staron®

Zelig

Zelig introduces an element of quirkiness to the work atmosphere. It is the new Babini Office proposal for the managerial office, a chameleon product inspired by the 1983 film which was directed by and starring Woody Allen. In its quirky and highly versatile nature, Zelig adapts to your individual taste and needs. Particular attention to detail and elegance is given to the finishes in this design.

Design: Ivan Palmi

Use: managerial/executive

Material: wood, metal

Finishes: surfaces: Ambra walnut, teak, white, fango grey

structure:

- **melamine:** Ambra walnut, teak, white, fango grey
- **aluminium:** Ambra walnut, teak, white, fango grey
- **steel:** black

Every room is transformed into an ideal workplace, so that the office becomes your special hub from which all innovation stems. This is the genetic code of Babini Office, a firm that continues to expand with exports to Western Europe, Russia, and the Middle East. ■
